Packaging

To ensure further protection of your shipment during its transit, we recommend taking advantage of our packaging options that are available in many different shapes and sizes. Contact your local DHL Express office for details on options and availability. A DHL Express courier will deliver the packaging to make preparing your shipment even easier.

For customers that need a reliable method to calculate their annual carbon emissions at shipment level and subsequently off-set these emissions through approved environmental programs. The whole process is verified annually by an independent body accredited by the World Bank.

Delivery Notification

When you need documented proof that your shipment has been delivered, DHL Express can provide a copy of the receiver's signature or delivery confirmation and either fax or email it to you, whichever is more convenient.

Remote Area Service

If you need to send a parcel or document to a remote location within Australia or anywhere else in the world, DHL Express will deliver for you.

Shipment Preparation

Convenient, fast and reliable service for seasonal or irregular shipments that require extra resources for their preparation. Duties & Taxes Paid

To make exporting your shipment even easier, DHL Express can arrange for the shipper or a third party to be billed for any Excise or Customs Duties and Taxes, rather than the usual process of billing the recipient of the shipment. Please contact your local DHL Express office for more details.

Neutral Delivery

To protect a competitive or purchasing advantage, you keep the declared value of your shipment confidential to the consignee with Neutral Delivery Service (NDS). Contact our DHL Sales Team to start shipping using NDS.

One Phone Call

Your suppliers phone our Customer Service Agents in the usual way and we'll handle the rest, giving you more time for your business.

One Network

Your shipments travel through DHL Express' integrated delivery network, giving you the confidence in reliability that your business demands.

One Price

Whatever the origin country of your import shipments, you know the shipment charges before anything is sent, avoiding any surprises later on.

One Invoice

If you have one supplier or multiple suppliers from several countries, all your Import Express shipments will be shown on just one single invoice.

GLOBALMAIL BUSINESS

Fast facts

International mail collection and delivery service structured to give you total convenience. DHL Express pickup your international mail – unsorted – and DHL Global Mail, the international leader in cross-border mail, organises all the sorting, franking and delivery.

- Up to 20 kg piece weight
- Available for paper-based, document items and non printed dutiable items
- No need to sort by format or destination
- Free collection for shipments valued over \$20
- No pre-payment
- Simple tariff structure

1. Printed matter only <2kgs refer to Global Mail Business Mail rates by corresponding country zone
2. Non-printed matter (i.e. dutiable items) <2kgs refer to Global Mail Parcel Mail <2k rates by corresponding country zone
3. Non-printed items (i.e. dutiable items) >2kgs up to 20kgs maximum refer to Global Mail Parcel Mail >2kg rates by corresponding country zone

Example:
20 letters (printed matter) sent as Global Mail Business each weighing 55grams from Australia to Hong Kong (Zone 2)

Calculation: -
20 letters x \$0.76 = \$15.20
+ (20 letters x 0.055kgs) x \$19.98/kg = \$21.97
Total postage charge = \$37.17
+ Variable Monthly Fuel Surcharge 16.5% = \$6.13
Total invoice charge = \$43.3

Calculating the rate:

1. Check the country rate zone (categorised under 5 zones) in the table below.
2. Check the number of items per zone and determine the total weight per zone (in grams).
3. All Global mail items are sent as "Priority Service" marked on section 8 of the DHL Express Airwaybill.
4. Now go to the tariff table on page 34 and look under the relevant service and zone, noting the charge per item. Multiply that figure by the number of items in the zone. Hold that total.
5. Look down to the second row and note the charge per kilo. Multiply that figure by the total weight of items going to that zone. Hold that total also.
6. Add the two totals in steps 4 and 5 above. That is the cost in AUD for the zone.

International shipments: AUD 30
 Domestic shipments: AUD 15

HOW TO WEIGH AND PAY

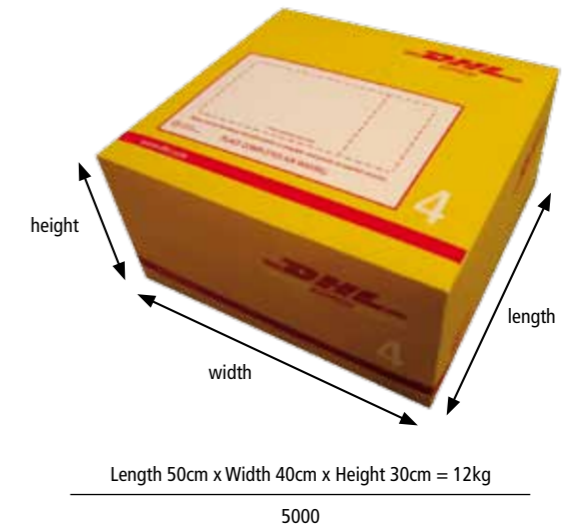

Volumetric weight

You may be sending a large, lightweight shipment where its volumetric weight exceeds its actual weight. If so, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method.

To calculate the volumetric weight of your shipment simply multiply the length (cm) x height (cm) x width (cm) of the shipment package and divide the result by 5000.

Payment for DHL Express services
